

# We Analyze Risks So You Can Make Confident Decisions

**Formerly operating as Bartlett Actuarial** we are a fully independent property and casualty actuarial services provider. With no ties to the insurance industry, we're able to provide unbiased, reliable and straightforward analytics. We take the guesswork out of what is often considered a very complicated process so that you fully understand the true costs associated with your risk management and insurance programs.

## The Risk International Difference

Our clients tell us they like doing business with us because we're unlike any other actuarial services firm, providing:

- Unbiased, honest analyses
- Clear, easy-to-understand communications
- Personalized service from real people, not automated processes
- Direct contact with our experienced actuaries (with no intermediaries)

## Who We Serve

Regardless of your size, type of business or geographic location, we can efficiently serve your actuarial needs. We have the analytical tools to perform the in-depth, highly complex analyses provided by the larger firms but in a friendlier style more typical of smaller firms. Among our satisfied clients are:

- Corporations
- Insurance companies
- Captives
- Self-insurers
- State regulatory agencies

# Risk International: A Total Solution

Risk International Actuarial Consulting is one part of a much larger risk management offering provided by Risk International. As a recognized global leader, we serve clients around the globe in a wide array of industries, including middle market to Fortune 500 companies and some of the largest private equity firms in the world. Completely independent from the insurance industry, we bring transparency and clarity to all of our transactions. Our highly experienced, diverse team has a proven track record for significantly enhancing value with sustainable results that drop straight to a client's bottom line.

## Discover How Else We Can Serve You

We can help you in so many ways, empowering you to do more with less by crafting higher-performing, lower risk, lower cost insurance and benefits plans.

### Risk Management

Optimize your total cost of risk (TCOR) by outsourcing your risk management to Risk International. Put the collective experience of nearly 100 risk management professionals to work on your bottom line and watch the savings add up.

### Benefits Advisory

Improve the performance of your benefits program by getting an in-depth, unbiased analysis of what you're currently spending and what you're really getting (and should be getting) for your investment. We enhance programs without sacrificing the quality of coverage for your employees.

### Claims Services

Mitigate your risk and maximize recovery when losses do occur with our outsourced claims managers. We help anticipate risk and efficiently manage the claims recovery process to drive significant impact on your bottom line.

**Let us be a part of your team. You'll be amazed at the difference we can make!**
