Security Gap and Risk Assessment

Cyber security is a business risk and not just an IT concern. You need to know where to start, what gaps and risks your business may face and how you can address security issues.

The Risk International Gap and Risk Assessment (GRA) gives you a complete strategic plan, recommendations and actionable steps to lower costs and risks and enable more revenue.

A Complete Security Plan

Get a detailed list of findings and recommendations to address risks and gaps.

Compliance Readiness with Security

Being compliant does not mean you're secure. We combine both to protect your business priorities and governance requirements.

Execute with Risk Management

Your GRA is just the beginning of a complete cybersecurity risk management program. ▼

How Risk International Creates Your Complete Security Strategy

Executive Business Alignment

Risk International Consultants complete a unique 1-hour Executive Workshop to align the 7 business areas, to prioritize and customize your security Strategy including:

1. Market Trust
2. Availability and Performance
3. Culture, Policy and Governance
4. Regulatory Compliance
5. Cost of Controls
6. Data Assurance
7. Security Liability

Qualitative and Quantitative Assessment

A complete assessment includes gathering critical information based on industry standards such as ISO 27001, NIST 800 and CIS20 controls

- A full team on-site workshop
- Maturity Model Baseline Scoring
- Compliance Readiness (HIPAA, PCI, SOC2)
- Complete Security Strategy Planning

Extensive Technical Visibility

No security assessment is complete without the technical data gathering. We include extensive visibility in every assessment:

- Internal & External Vulnerability Scanning
- Windows Configuration Auditing
- Data Breach Discovery Scanning

Low Cost Options ▼

Executive Workshop

Align the SBA7 business priorities to business and create your overall security strategy for less than \$900.

IT & Security Assessment

Risk International offers three levels of assessments based on your budget. GRA-lite, Full GRA and GRA + Compliance.

Vulnerability Scanning

Internal and External vulnerability scanning on a regular cadence that can be done for less than \$1,500. Set up a scan as often as you need.

About Us ▼

Founded in 1986, Risk International is today's preeminent risk and benefits management firm. We are not a vendor or distributor. As an independent firm we are unbiased and free from the vendor and tools market that has conflicting interests to try and sell you their security control to solve a problem you may not even have.

Our experts work with you and your team to optimize your risk benefits programs, insurance spend and cyber security risk, reducing costs and increasing efficiency. We relentlessly pursue results and generate billions of dollars of shareholder value for our clients year after year.
