

Solution Services

Cybersecurity Risk Management

In today's constantly changing and challenging landscape, protecting digital information and assets is now a priority — and it can impact your entire business. Complying with industry and government security regulations adds complexity and risk. You need a partner that understands security obligations, and can balance them with business needs.

Risk International IS that partner. Our unique methodology will address cybersecurity programmatically, and our Consultants and Security Leaders become an integrated part of your team to reduce risks and costs while enabling the business, even increasing revenue. We will assess your security readiness and provide a complete cost effective strategy to transform your business. ▼

Executive Business Alignment. Our unique workshop maps cybersecurity requirements to your business priorities and strategy.

Gap and Risk Assessments. A comprehensive process, both qualitative and quantitative, gets you full visibility to needed controls.

A Tactical Security Plan. A complete deliverable roadmap of how to secure your business while enabling users and customers.

Security Risk Management. Complete vCISO Leadership and services at a fraction of the cost of trying to manage the program on your own.

How Risk International Lowers Costs and Risks and Enables Revenue

1. Align Security to Business Priorities

Risk International experts guides your Leadership through a unique 1-hour workshop that will:

- Align the top 7 business priorities to cyber risk
- Create a business-first strategy with a proven and unique methodology
- Assess current business baseline of readiness, strategy, execution, operations and culture
- Map revenue streams to security controls to protect data, customers and income

2. Security Strategy Plan & Execution

Risk International Consultants will perform a complete Security Gap and Risk Assessment,:

- Security Maturity Model Score
- Costs / Risk Position and Optimization
- Complete technical vulnerability scanning, configuration audit and data discovery
- 24 month Actionable security strategy deliverable and execution plan

3. Ongoing Security Risk Management

Security needs to be a program, not just a project. Risk International will provide you with a comprehensive risk program and strategy.

Virtual Chief Information Security Officer (vCISO) services provide strategic direction. Security / Business alignment, technical control selection and adherence to compliance requirements at a much lower price point.

Complete Security ▼

Compliance

Enterprise Risk Management

Risk International has proven expertise in all aspects of ERM, including business risk, Benefits alignment, Insurance advisory and Actuarial. Adding Security ERM only makes sense.

About Us ▼

Founded in 1986, Risk International is today's preeminent risk and benefits management firm. We are not a vendor or distributor. As an independent firm we are unbiased and free from the vendor and tools market that has conflicting interests to try and sell you their security control to solve a problem you may not even have.

Our experts work with you and your team to optimize your risk benefits programs, insurance spend and cyber security risk, reducing costs and increasing efficiency. We relentlessly pursue results and generate billions of dollars of shareholder value for our clients year after year.
